

7. MONITORING OF REUSABLE PACKAGING

There is a great deal of reusable packaging on the market. This is mainly reusable industrial and commercial packaging that has great growth potential for the future.

	Household packaging waste (in kilotonnes)	Industrial/commercial packaging waste (in kilotonnes)
One-way packaging	761	773
Reusable packaging	588	3,434

7.1. Overall trend in reusable household packaging

7.2. Overall trend in reusable industrial and commercial packaging
